Protective Measures for a Consultation on Site

Due to the current epidemiological situation, the following protective measures apply to every consultation at the Psychological Counseling Center at Plattenstrasse 28, 2nd floor:

Postpone your appointment if you feel physically uncomfortable or if you have symptoms of illness.

Students of the UZH and ETH Zurich must wear a mask throughout the building, also during the counseling session.

Please appear on time for the consultation, ring the bell at the entrance door on the 2nd floor, disinfect your hands and wait there until the counselor picks you up.

Do not touch any doorknobs and do not enter until you are asked to do so.

Keep a distance of 1–2 meters from the adviser and other people.

Follow the further instructions of the adviser.

More Information

The consultation rooms are set up so that a distance of 2 meters can be maintained.

The consultation rooms are regularly ventilated.

There is a mask requirement.

The toilet at our center cannot be used. It is only available to employees.

Waste such as handkerchiefs should only be disposed of in the pedal bin in the corridor.

Bring your water bottle and handkerchiefs with you if necessary.
